COMBINATION FIXTURE - M3115-90C

_		itom
1.6 g	pf (6.0 Lpf) Fixtures	- 3" waste connection
	3115-90-C	Back supply connection 1 ¹ /2" (38mm) FIPT.

1.28 gpf (4.8 Lpf) Fixtures - 2-3/8" waste connection

HET3115-90-C Back supply connection 1¹/2" (38mm) FIPT.

· Chase mounted cabinet, wall outlet waste.

Lavatory Basin-

• Oval.

· Fast drain.

· Air circulating self draining soap dish.

• 4" (102mm) high backsplash.

• 1¹/₄" (32mm) OD elbow sink waste with air vent, plain end extended 4" (102mm) past back of fixture for slip type connection.

Toilet Bowl-

· Elongated.

• High polished integral seat.

• Self draining flushing rim.

· Blowout flushing action.

• Fully enclosed trap.

WARNING: Cancer and Reproductive Harm - www.P65Warnings.ca.gov.

▶ DESCRIPTION

This Combination Lavatory/Toilet Fixture is designed for areas with an accessible pipe chase. Fixtures are fabricated using heavy gauge type 304 stainless steel, welded to form a vandal resistant unit. Internal piping is stainless steel. Exposed surfaces are polished to a satin finish, except for the integral seat which is polished to a bright finish.

▶ PERFORMANCE STANDARDS

Metcraft's standard toilet is a 1.6 gpf (6.0 lpf) fixture with a 3" (76mm) waste outlet. Metcraft offers a "High Efficiency Toilet" (HET) 1.28 gpf (4.8 lpf) with a 2 $^3/8$ " (60mm) waste outlet as an option. Metcraft bowls and assemblies are designed to withstand 5000 lb. (22kN) loading without permanent deflection and damage. This fixture meets or exceeds ASME A112.19.3 / CSA B45.4 standards for "Stainless Steel Plumbing Fixtures". The trap will pass a 2 $^1/8$ " (54mm) dia. ball. A minimum 1" (25mm) supply providing 35psi (241kPa) flushing pressure is required.

► INSTALLATION

An accessible pipe chase is required. Six anchor rods screw into sockets on back of the fixture. Anchor rods pass through the wall and are secured with washers and hex nuts on the chase side of the wall. No exposed fasteners are used. The installer must provide wall openings for anchor rods, piping, and valve operators per rough-in drawings provided by Metcraft. Valves should be installed in the pipe chase.

Water Consumption:

With a low consumption flush valve - 1.6 gpf (6 liters) With a HET consumption flush valve - 1.28 gpf (4.8 liters)

RECOMMENDED FLUSH VALVES

	SLOAN	ZURN	DELANY	
Low consumption	603-1.6	Z6603-1.6	623-1.6	
HET	603-1.28	Z6603-1.28
