Unit may be pictured with some optional features.

- 1.6 gpf (6.0 Lpf) Fixtures 3" waste connection
- □ 3655-R Back supply connection 1" (25mm) MPT.
 □ 3655-L Back supply connection 1" (25mm) MPT.
- 1.28 gpf (4.8 Lpf) Fixtures 2-3/8" waste connection (WaterSense)
- HET3655-R Back supply connection 1" (25mm) MPT.

 HET3655-L Back supply connection 1" (25mm) MPT.
- Front mounted cabinet, wall outlet waste.
- Lavatory Basin-
 - Rectangular.
 - Fast drain.
 - · Air circulating self draining soap dish.
 - 4" (102mm) high backsplash.
 - 1¹/2" (38mm) P-trap sink waste with air vent.
 - Drip Dimple.
- Toilet Bowl-
 - Elongated.
 - · High polished integral seat.
 - · Self draining flushing rim.
 - Blowout flushing action.
 - · Fully enclosed trap.
 - · Bead blast inside and underneath bowl.

WaterSense certified when used with a certified high-efficiency flushometer

WARNING: Cancer and Reproductive Harm - www.P65Warnings.ca.gov.

DESCRIPTION

This Combination Lavatory/Toilet Fixture is designed for areas without an accessible pipe chase. Fixtures are fabricated using 14 gauge type 304 stainless steel, welded to form a vandal resistant unit. Internal piping is stainless steel. Exposed surfaces are polished to a satin finish, except for the integral seat which is polished to a bright finish. Valves and other optional features are available.

▶ PERFORMANCE STANDARDS

Metcraft's standard toilet is a 1.6 gpf (6.0 lpf) fixture with a 3" (76mm) waste outlet. Metcraft offers a "High Efficiency Toilet" (HET) 1.28 gpf (4.8 lpf) with a 2 $^3/8$ " (60mm) waste outlet as an option. Metcraft bowls and assemblies are designed to withstand 5000 lb. (22kN) loading without permanent deflection and damage. This fixture meets or exceeds ASME A112.19.3 / CSA B45.4 standards for "Stainless Steel Plumbing Fixtures". The trap will pass a 2 $^1/8$ " (54mm) dia. ball. A minimum 1" (25mm) supply providing 35psj (241kPa) flushing pressure is required. Listed by

► INSTALLATION

These fixtures are secured to the wall from the fixture (cell) side using a six point anchor system. Six bolts screw into expansion sheilds in the wall (Expansion sheilds are not included). The installer must provide wall openings for piping per rough-in drawings provided by Metcraft. Valves should be installed inside the fixture. Fixture is handicap compliant when installed per quidelines for accessibility.

Plumbing connections and service are performed through access panels on the sides of the fixture and a sink enclosure beneath the sink. Access panels are secured in place with vandal resistant fasteners provided by Metcraft.

Water Consumption:

With a low consumption flush valve - 1.6 gpf (6 liters) With a HET consumption flush valve - 1.28 gpf (4.8 liters)
